

Forest Planning Analyst

Campbell Global ("CG") is seeking a Forest Planning Analyst to join our team in beautiful Portland, Oregon. The successful candidate will work closely with internal teams to incorporate acquisition and valuation inputs to inform harvest scheduling and investment analysis in the development of long-term plans for select timberland properties under management. Additionally, analysis of micro-economics supporting optimization of forest management regimes across a range of forest and economic conditions will be completed.

Campbell Global is a leading timberland investment management organization headquartered in Portland, Oregon. CG brings more than three decades of experience and leadership to sustainable timberland and natural resource investment management. As a full-service firm, we acquire and manage timberland for investors, while providing the highest quality service and expert management. To do this, we continually focus on our core values: Quality, Service, Integrity, Growth, and Fun.

As of December 31, 2016, the company manages approximately 2.6 million acres (1.1 million hectares) worldwide. The firm has a very competitive compensation structure and a first-class benefits package which includes paid vacation and sick leave, as well as employer-paid premiums for health care, dental, vision, life and disability insurance, as well as a 401(k) plan and generous employer contribution program.
