

Position: Forest Inventory Analyst

Location: F&W Headquarters in Albany, GA

Responsibilities: Primary responsibilities will focus on forestland inventory analysis and reporting with F&W's TIMBER® inventory software, forestland inventory project management, inventory and analysis support for F&W's branch offices, and application of growth & yield software to assist in investments analysis. Additional duties will include inventory map creation with ESRI ArcMap.

Requirements: Candidate will have a minimum of a bachelor's degree in forestry or closely related field with experience in forest sampling, mensuration, statistics, and forest measurements. Strong technical and quantitative skills are required. Experience with Microsoft Office products including Excel, Access, and Word. Proficiency with inventory software, growth and yield modeling and ESRI GIS software is needed.

Salary: Salary is commensurate with experience and education.

Duration of Position Opening: Until position is filled.
