Position: Registered Professional Forester

This position is responsible for the design and preparation of timber harvest plans that comply with State regulations and Green Diamond Resource Company standards and guidelines. The Forester provides clear and concise communication of timber harvest plan content to timber operators prior to and during operations. The Forester may be responsible for contract administration for harvesting operations when assigned. The Forester will also have other duties such as assisting with prescribed burning for reforestation, participating in tours of the property and assisting other departments as assigned.

ESSENTIAL FUNCTIONS: (other duties as assigned)

- Responsible for preparation of Timber Harvest Plans (THP) through all stages up to approval.
- Ensures all Timber Harvest Plans are properly engineered and documented in the field. (Roads and harvest units).
- Provides appropriate information regarding THP statistics for planning purposes (Yarding methods, volume/acres, species distribution, log size distribution, special provisions).
- Conducts THP specific archaeological and historical surveys and prepares Confidential Archaeological Addendums as specified in the Forest Practice Rules.
- Provides information as necessary to assist with biological, geological, and botanical surveys and reports.
- Assures that critical THP information is communicated to key Green Diamond departments including Operations, Roads, Wildlife, Intensive Forest Management (IFM) and Forest Resource Information System (FRIS).
- Develops approximately 4 or more approved THP's per year (depending upon acreage and complexity).
- Communicates often with members of the various regulatory agencies involved with California's Forest Practice Rules and timber harvest planning process. Interaction with members of the community may be required where THP development is adjacent to, or in close proximity to urban settings.
- Analyzes existing ground conditions and develops an efficient, logical, cost effective, and legal Timber Harvest Plan based on the analysis. This includes a solid understanding of current road engineering design and location techniques, as well as yarding systems capabilities and their appropriate application.
- Holds a unique position in which professional and ethical behavior is of utmost importance in THP preparation, interfacing with the public, and maintaining Green Diamond's high standards and positive image.
- Participates in continuing education programs and training related to the forestry profession.

KNOWLEDGE, SKILLS AND ABILITIES REQUIRED:

- Bachelor's degree in Forestry or closely related field, or equivalent work experience.
- Valid California Registered Professional Forester license.
- Experience with THP layout, engineering, and preparation, including five years (or equivalent) experience in a broad range of forestry operations.
- Skills necessary for the design and layout of new forest management standard roads.
- Valid CA driver's license.
- Must be able to successfully pass a qualifying course in ATV training.
- Must be able to successfully complete the FPR required archaeological surveyor training program.
- Ability to work unsupervised.
- Be highly motivated and self-directed.
- Proven strong leadership skills. Works with integrity, trust and commitment, setting an example for others.

Benefits include: Competitive wages based on experience and qualifications, bonus plan, vacation, paid holidays, health benefits package, 401k and a company vehicle for business use.
