- BS in forestry or 2 year technical degree in forestry with a minimum 3 seasons of experience in the field
- Understanding/experience in GPS devices and GIS applications
- Understanding and experience in State Regulations and Best Management Practices is desired
- Familiarity with Western Washington tree species is desired
- Ability to work alone on rough terrain

Preferred Skills

- Team player
- Self-motivated
- Problem solver
- Knowledgeable in Microsoft Excel, Word and Outlook
- Experience with basic forestry tools (compass, clinometer, spencer tape)
- Communicate well with others, both written and verbal
