This position reports to the Coast Cascade Area Manager based in Anderson, CA.

ABOUT THE POSITION

- Overall district management responsibility including a qualified forest management team, forestry and wildlife resources, road and watershed networks, and timberlands operations.
- Effectively balance issues associated with safe and sustainable forest management, commercial interests, community relations, and diversity across the landscape.
- Plan and implement programs that ensure the effective use of resources to meet the current and long term objectives of sustainable forest management.
- Plan, direct, and administer multiple use timberland management activities including silviculture, timber harvesting, fire protection, insect and disease protection, road maintenance and construction, facility upkeep, recreation, grazing, and watershed and environmental protection.
- Facilitate associated Company programs such as forest inventory, reforestation, and wildlife management.
- Represent the Company's interests while working directly with local, state, and federal regulatory agencies.
- Annually budget for district expenses and negotiate contracts to accomplish such activities.
- Maintain globally recognized forest sustainability certification.
- Participate actively in the local community as a representative of the Company.
- Strongly preferred to live in the general Weaverville area.

QUALIFICATIONS

- BS in Forestry, or closely related discipline
- California Registered Professional Forester
- Extensive experience in California sustainable forest management and THP preparation as well as reforestation, harvest scheduling, contract negotiations and administration, and sustainable forest management
- Thorough working knowledge of local, State, and Federal political/regulatory processes
- Demonstrated skill in leadership, effective communication, motivation, and people management
- Proven ability to build collaborative working relationships within an organization
