Agriculture and Natural Resources

### Area Forestry & Natural Resources Cooperative Extension Advisor – Assistant Level Serving Plumas-Sierra and Lassen Counties

The University of California's division of Agriculture and Natural Resources (UC ANR) seeks an academic advisor who can conduct a multi-county-based extension, education, and applied research program to address high priority issues with focus on forest resource management and the sustainable use of forest resources. Important issues to be addressed include sustainable forest stewardship, forest fuels management, fire resilience, forest restoration, water quality, fire-wise communities education, carbon sequestration, invasive species, pest management, air quality and public education

#### We seek an advisor who is:

- An innovative researcher or has the ability and commitment to develop an applied research program, evaluate programs, and report accomplishments, results, and potential or actual impacts to scientific and lay audiences.
- An educator, who can deliver an ongoing extension education program using traditional, contemporary, and emerging tools that address the needs of clients in the area served that are age, literacy and culturally appropriate; and that adhere to research-based curricula, program protocols, and grant requirements.
- A collaborator, who can develop partnerships and leverage resources to deliver innovative approaches that will develop, strengthen and expand the local delivery of statewide programs; one who can collaborate with UC ANR Strategic Initiatives, program teams, workgroups, and specialists; federally funded nutrition programs, the private sector, and others within the research/extension network.
- A visionary, who can complement UC ANR's Strategic Vision, optimizing opportunities for conducting outstanding research and extension programs that meet the needs of Californians.

For information about UC ANR, the rich breadth of program scope and delivery, and how we are making a difference in California, candidates are invited to visit our Web site: <http://ucanr.edu/>.

#### This is an academic career track appointment with the following requirements:

- A minimum of a master's degree; other advanced degrees are encouraged in forest management, forest ecology, wild land fire science, watershed management or a closely related field.
- Must possess an understanding of applied forest management.
- Must be capable of taking and passing the California Registered Professional Foresters Licensing examination within five years of being appointed.
- Excellent written, oral and interpersonal communication skills.
- Demonstrated ability to work collaboratively as a team member with other professionals.
- Willingness and ability to embrace change as clientele and organizational needs evolve.
- A general familiarity with Northern California forest conditions as they relate to its many societal and ecological variables is desirable.

Beginning salary will be in the Cooperative Extension Assistant Advisor Rank, and commensurate with applicable experience and professional qualifications. We have great benefits, for more information visit the UC Benefits Web site: <http://ucnet.universityofcalifornia.edu/>.
