

*Forest2Market, Fisher International and Tecnon OrbiChem are three companies with a combined mission – to provide data, analytics, business intelligence and supply chain expertise to the forest products and chemicals industries. We are looking to fill the need for a Business Analyst under Forest2Market, working out of our Charlotte, NC headquarters.*

## **BUSINESS ANALYST**

Charlotte, NC

The Business Analyst will help lead Forest2Market's consulting activity in North America, working in conjunction with consulting peers, as well as with our larger team of business development executives worldwide. The primary function of this role will be to:

- **Gather qualitative and quantitative information that drive rigorous business case analysis**
- **Build models and develop insights that support client strategic decisions**
- **Conduct structured analysis of industry supply curves and asset qualities**
- **Help maintain and update our cost competitiveness database – *SilvaStat360***

The successful candidate will be energetic, driven and a self-starter with forestry and/or forest product experience. This position will report to our Director of Consulting.

### **Requirements:**

- 1-3 years relevant work experience or internships in consulting or business analysis
  - Previous exposure to the forest, paper & packaging industry a plus
- Bachelors or Master's degree in Business, Finance, or Engineering
- Strong computer skills are required including; Excel and Power Point (GIS and/or SAS software experience a plus)
- High level analytical, numerical, and problem-solving skills
- Strong oral and written communication skills, including presentation and facilitation skills
- Team Player with strong social skills
- Fluency in English required

### **Responsibilities:**

- Undertake analyses and provide high quality insights that add value to our clients
- Source information, maintain and develop databases
- Develop material for clients and deal with client requests
- Participate in sales activities by preparing analyses and deliverables for presentation and project proposals
- Work in client projects as a team member collaborating with colleagues across our company's International global footprint
- Develop and broaden consulting skills, knowledge, and industry experience

### **Compensation and Benefits**

- Compensation is commensurate with experience
- Benefits package provided
