

## **Technical Forester Four Rivers Land & Timber Company LLC**

Four Rivers Land & Timber Company LLC owns and manages over 560,000 acres of timberland in North Florida and West Georgia. We have an opening in our Resource Planning Group for a technical forester which is involved in GIS data collection and management, capturing drone photography, web application development, silviculture planning and analysis, inventory data management, photo interpretation, and assisting with land management activities. Applicants should be willing to live within 25 miles of the Florida property, be able to work outdoors, self-motivated and willing to work individually and with a team.

**Education/Experience:** a minimum of a BS degree in Forestry or related field. GIS or forestry experience is preferred.

**Preferred Skills/Knowledge:** working knowledge of silvicultural practices, logging systems, forest inventory, aerial imagery, GIS, and GPS along with computer proficiency with Microsoft applications.

**References:** Required

**Salary:** Competitive salary, retirement, healthcare, paid leave and other benefits.

**To Apply:** send your resume to: Four Rivers Land & Timber Company LLC  
Attn: Travis McCoy  
1700 Foley Lane  
Perry, FL 32347  
tmccoy@fourriversltd.com
