

Job description

We are searching for a Full-Time Ranch Manager. The ranch is used by the owner and the owner's family for recreational purposes. The primary focus of the Ranch Manager is to maintain the property in a first-class manner. Forestry Management being a priority for 1,100 acres in total. Approximately 80% of the land is under various stages of forestry management, ranging from mature forests to recently planted forests with an active management plan in place. There is no animal husbandry associated with the ranch. Some of the acreage is mowed for hay. This position will report directly to the owner.

This is a unique opportunity for a proactive and passionate individual to apply ranch management and forestry management skills towards a rewarding career. On staff currently is the Ranch Superintendent who has been employed for 41 years. He will report to the Ranch Manager and provide valuable knowledge and experience.
