Position: IFM & Inventory Technician

Green Diamond is currently recruiting for candidates seeking a unique career opportunity as an IFM & Inventory Technician. This unique position divides the calendar year between two disciplines, the Intensive Forest Management (IFM) Department and the Forest Resource Information Systems (FRIS) Department. The work format in IFM includes performing various reforestation and pre-commercial thinning project related tasks, data collection associated with monitoring the results and progress of the reforestation projects and assisting with monitoring the work of the various project contractors. While working in Inventory (FRIS) this position will support collection of high-quality data for a variety of inventory related tasks which monitor the location and growth of company owned timber stands. This position under both disciplines will be supervised by a current RPF (Registered Professional Forester). This allows accumulation of hours to eventually sit for the RPF licensing exam.

Benefits include: Competitive wages based on experience and qualifications, bonus plan, health benefits package, vacation, paid holidays, life insurance, 401(k) retirement plan and a company vehicle for business use.
