

LandVest is looking for an energetic, entrepreneurial, and dedicated professional for a Forest Operations Manager position to serve our clients in our Northern New Hampshire region. The position may also include assisting on projects in Northern Vermont and Western Maine. Primarily, the position involves field work focused on road and harvest operations but will also include inventory/cruising work. As the candidate gains or demonstrates experience, responsibilities will grow to include preparing forest management plans and maintaining existing client relationships. The position is based out of our West Stewartstown, NH office and reports to the Timberland Region Manager. Candidates should possess or be willing to obtain a New Hampshire Forester's license.

LandVest has over 50 years of experience in providing industry-leading consulting forestry services to its diverse clientele. Our staff is providing direction and guidance to always look ahead, use the most advanced forest science and bring about the finest long-term stewardship of our client's forest resources as we work to meet their objectives of ownership. The staff consult on properties of varying sizes, timber types and varied ownership objectives.

Duties and Responsibilities:

- Operations: Field work involving planning and laying out of harvest units, planning and layout of road construction/maintenance activities, marking timber, inspecting active harvest and/or road operations and closeout, maintaining timber sale records, and collecting GPS data.
- Inventory: Collecting field data, following LandVest cruise protocols, and preparing cruise reports.
- Office: Operational planning, management plan development, project administration, data analysis.
- Other: We are active in certification programs. LandVest is a Group Certified manager under FSC® certificate C120428 covering +/- 125,000 acres. Successful candidate will be trained to implement LandVest's Operations Manual and Practices and Protocols that comply with certification and our company standards.

Minimum Qualifications:

- Bachelor's degree in Forestry from an SAF accredited program.
- Minimum of 3 years of operational experience in similar timber types & conditions
- Strong communication skills- verbal and written.
- Ability to problem solve and having a strong attention to detail are essential.
- Ability to work with a broad variety of internal staff and external clients and colleagues.

- Must be willing to work strenuous days, occasional weekends, outdoors year-round in all weather conditions.
- Strong knowledge of and ability to implement mixed northern hardwood, spruce-fir and pine silviculture, planning and supervision of harvest and road operations, cruising, and inventory skills.
- Good computer skills in most elements of Microsoft Office; GPS and introductory GIS skills.
- Reliable and woods ready 4WD vehicle.

Pay and Benefits:

- Salary commensurate with experience and demonstrated skills.
- Benefits include medical, dental, 401K with match, paid vacation and sick leave.
- Incentives paid for generating new work and meeting budgets (profit sharing).
- Expense and mileage reimbursement. Annual stipend for personal vehicle use with appropriate gear.
- Reimbursement for professional dues, licenses, continuing education.
