

Position: Forester/GIS Manager

Office Location

Queensbury, NY

Description

We are looking for a Forester to join the Lyme Adirondack Forest Company team. The Forester will be responsible for various aspects of forest management activity across our 235,000-acre ownership and manage our GIS programs.

Duties

- Management and maintenance of GIS software and field collection programs
- Provide GIS and related program technical support to LAFCO foresters
- Field layout and delineation of timber harvest boundaries, riparian zones, wildlife management areas, road right of ways and other areas related to timber harvesting activities
- Inspection of harvest operations as it relates to adherence of contract specifications, silvicultural prescriptions, proper utilization of harvested timber, compliance with environmental regulations and best management practices
- Supervision of logging and road contractors
- GPS/GIS mapping of harvested areas, forest roads, property boundaries and other pertinent features on company managed lands
- Timber cruising for both long and short term forest management planning
- Delineation, maintenance and or renewal of property lines and boundaries
- Other land management activities as needed

Education and Experience

- B.S. in forest resource management or related field
- Focus on geospatial sciences or related field is a plus
- Forestry field work experience is a plus

Salary/Benefits

Competitive salary commensurate with experience. A company work truck will be provided. Paid vacation and holidays. Health insurance, 401(k), Disability and Life insurance coverages.

Application Process

Applicants should submit a cover letter and resume to ecross@lymeadirondack.com

Lyme Adirondack Forest Company LLC (LAFCO) – based in Queensbury NY, currently employees 15 people charged with the management of 230,000+ acres in the Adirondack region of New York. The lands are managed to FSC and SFI standards. LAFCO is also active in managing private forestland in the region, purchasing standing timber and purchasing delivered logs on the open market at our log yard in Chestertown NY.
