

Montrose Forest Products, LLC

P.O. Box 1149, Montrose, CO 81402

T: (970) 249-0812

Montrose Forest Products is seeking applicants for our Logging Quality position.

The job is full-time year-round work based primarily at our stud mill in Montrose CO, and partially in the field across five national forests in CO.

Responsibilities/ Requirements:

- Quality control of delivered logs following logging quality guidelines.
- Communicate log quality issues to the foresters and loggers via pictures and reports.
- Stick scale log truck loads to determine weight factors. *On the job training for this task.
- Use large chainsaws (24-30" bars) to perform a variety of tasks such as cutting oversize logs down for mill infeed.
- Perform weed spraying and basic maintenance items to chainsaws and other equipment during down time.
- Assist foresters with all manner of forestry technician work at the mill and in the field such as timber sale layout, seeding, chainsaw work, and field inspections as time allows.
- Able to input data into Microsoft Excel and upload photos to email.
- Be able to work outside for the duration of the day, sometimes in inclement weather.
- Hours are varied on weather and time of year. Expect early days, 0530-0630 start in the summer and 0700 in the winter. Work requires daylight and weeks are approximately 40-hrs. with some weeks having overtime up to 5-hrs.

Ideal Qualifications:

- Two-year degree in forestry/ natural resources, or equivalent experience.
- Competent with operating chainsaw.
- Desire to grow and advance in the field of forestry.

Benefits/ Compensations:

- 20-25 dollars an hour, based on experience/ education
- 401k with company match
- Health insurance provided by company
- Opportunity for growth and advancement in Forestry department
- PTO after first year
