

## Forestry and Procurement Manager

Founded in 1887, Tigerton Lumber Company is a premium northern hardwoods lumber producer located in Tigerton, WI. With over a century of experience and company history, our organization is committed to sustainable and renewable forest management.

Our organization is seeking a self-motivated individual to oversee our log procurement team as well as assist in forestry management of company owned timberlands.

Employees of Tigerton Lumber Company have access to excellent benefits and incentives including:

- Competitive compensation
- Health insurance
- Life insurance and AD&D policies
- 401(k) savings plan with Company match
- 2-weeks paid vacation
- Work boot reimbursement

Job Responsibilities:

- Oversee and manage a procurement team of three experienced foresters, setting volume goals and pricing parameters.
- Oversee payment rates for stumpage, harvest, and trucking contracts with procurement team.
- Manage relationships with local mills for sale of pulp and chips.
- Manage remote log landings and log inventory based on mill consumption and current markets.
- Work with the finance department on quarterly wood costs, forecasting and inventory management.
- Knowledge of current wood markets, product markets and trends.
- Assist in the management of approximately 40,000 acres of company owned timberlands. Including maintenance of forest inventory, timber cruising, preparation of silvicultural prescriptions, sustainable harvest planning with natural regeneration development.
- Assist in purchasing standing timber from private, county, state and federal entities. Oversee logging and trucking contractors on the harvest of timber based on forest management plans and contract standards.
- Understanding of Managed Forest Law and Forest Crop Law timber sale procedures.
- Assist in filing county cutting notices.
- Assist timber marking and timber sale administration on company land as well as private non-industrial landowners.

Desired Qualifications:

- Team oriented with strong communication skills. Ability to build rapport and good working relationships with co-workers, landowners, log suppliers, forestry professionals, etc.
- Analytical and problem-solving skills.
- Self-motivated with desire to excel.
- Forestry degree or equivalent experience in wood procurement.
- Minimum 5 years timber experience.
- Ability to travel across the log procurement area. Valid drivers license required.

Tigerton Lumber Company is an equal opportunity employer.
