

2/11/2020

Application Deadline 4/9/2020

Forester

Based in Lumpkin, GA, but working throughout continental US; Immediate relocation to SW Georgia not required, as we have accommodations when working locally.

Overview: Well established and reputable **Forestry Services Contractor** has immediate opening for Forester to supervise hand, tractor, and aerial spray jobs, fertilizer jobs, and hand and machine planting. We are looking for a fulltime employee, with starting salary of **\$45,000 to \$52,000** per year **plus incentives and bonuses**, depending on qualifications and experience. We are looking for an individual to learn the business from the ground up, with goals of working into a full sales or management position, and plenty of room for advancement and personal growth. Must have clean driving record, be able to pass DOT drug screen and physical, work outside, and work with others as a team. Travel will be required, with all expenses paid plus per diem. Health insurance and 401(k) plans are available.

Detail: As part of the training process, the Forester will spend significant time working with company owned helicopter spray crews managing logistics, ordering and mixing herbicides, communicating with customers and company personnel, and managing day to day crew operations. This entails long hours through the spring and summer months, with travel throughout the US South and Midwest.

During the winter season, the Forester will supervise hand and machine contractors performing tree planting in our local areas. These duties include leading crews to work sites, managing performance and quality of crews by establishing plots to check planting quality and spacing, ordering and proper handling of trees, and communication with customers.

Other duties include but are not limited to pick up and delivery of herbicides and trees, managing and assisting contract aerial spray crews, contract hand banding and broadcast application of herbicides, tractor applications of herbicides and fertilizer, and company fixed wing fertilizer and fire fighting crews.

Ideal candidate will be willing to work hard, work long hours, and work as a team to make sure all company crews and subcontractors are performing quality work and are productive. Candidate must be a good communicator, self- starting, have basic computer skills, able to navigate both on and off road, and must be willing to put in the time to train as part of company and personal development. As the individual progresses, they will gain more responsibility, and they will grow into management of crews and sales of herbicides, fertilizers, and all of the services that we offer. Position is open to graduate foresters, two year or technical foresters, or anyone with extensive experience with above described duties.

Extensive travel will allow the opportunity to see diverse parts of the country and work with a wide array of customers. Hotels are paid for by company, and employees receive a per diem for meals when working out of town.

Apply online at www.bandsairinc.com or call 404-326-8491 with questions.
